## EXPERTISE SUMMARY:

- Good knowledge on Creating and deploying the **Resource Groups, virtual machines, storage accounts** and **app services** by using Azure Portal
- Knowledge on **VM deployments** backup and restore using Azure Portal, ARM Templates.
- Knowledge on deployment and managing of **Virtual Machines**. Configuring and managing **Virtual Machines**.
- Knowledge on creating Virtual machine **snapshots** and **Image** capture
- Knowledge on Troubleshooting VM connectivity and VM Resize Issues.
- Knowledge on assigning the Roles or Providing access to users through IAM
- knowledge in implementing and managing **Azure Storage accounts**.
- Knowledge on creating Virtual Networks, Subnets and Network Security Groups
- Good understanding creating **Network Security Groups** and adding **inbound rules** and **Outbound rules** for various ports.
- Managing Azure virtual machine backup and Restore
- Knowledge in creating, configuring and managing **Virtual Networks**.
- Knowledge on **monitoring Cloud services**
- Good Knowledge in configuring the **Peering, Point-to-Site VPN** and **site-to-Site VPN**.
- Knowledge on Azure **Virtual Networks (V Nets), subnets, Azure network settings**, security policies.
- Knowledge in PowerShell scripting for automation of technical activities.
- Good understanding of **Azure networking, Storage, VM, NSG, ARM**, etc.
- Good knowledge in **ARM templates**.
- Troubleshooting **VM Resize Issues**.
- Good understanding in Azure regions, **Availability set** and **Availability Zone**.
- Exposed Virtual machines and cloud services in the V Nets to the Internet using Azure External **Load Balancer**.
- Implemented high availability with **Azure Resource Manager** deployment models.

- Knowledge on **Network Security Groups (NSGs)** to control inbound and outbound access to **network interfaces (NICs)**, VMs and subnets.
- Good understanding in **Blob storage** and **File storage** and Configured PAAS services like App service.
- Good knowledge in **Application Gateways**.
- knowledge in **Virtual Machine scale sets**.
- Knowledge on **Cost optimization & making the report** of cost details of every month

#### TECHNICAL KNOWLEDGE:

<b>Cloud Platforms</b>	Microsoft Azure, AWS
<b>Azure</b>	Azure Portal and Performance, VM deployment, Storage, Load balancer
<b>skills</b>	Azure, Java, HTML, MS Office
<b>Operating System</b>	Windows Servers, Windows 10 & 11

#### EDUCATION:

- Bachelor of Technology – ECE (2019-2022) ACE Engineering College
- Diploma ECE (2016-2019) VMR Polytechnic College
- Class X (2015-2016) Sri Aravinda Vidya Mandir High School

**LANGUAGES:** Telugu & English

#### Declaration:

I hereby declare that the above-mentioned information is correct up to my knowledge and bear the responsibility for the correctness of the above-mentioned particulars.
